PTS currently trains 8000+ Direct Support Professionals (DSPs) in live instructor led classes each year throughout Arizona. With new agencies coming to our program each and every week, we are thriving like never before. PTS employs two DDD lead Article 9 and Prevention and Support instructors. We attribute our success to the simple commitment that training is not purely about compliance, but rather the opportunity to participate in this great civil rights movement. Check out a sample lesson about person first language!
