SANDATA ELECTRONIC VISIT VERIFICATION™ Enabling care plan compliance, and improving participant care and quality of service Sandata EVV™ ensures 21st Century Cures Act Compliance. We validate the type of service performed; Individual receiving the service; Date of the service; Location of service delivery; Individual providing the service; and Time the service begins and ends. Our powerful combination of patented solutions for visit verification is called our Assured Coverage™ program and includes: Sandata Mobile Connect™ – Real-time GPS technology, verifying caregiver location and visits via GPS enabled devices. Telephonic Visit Verification™ (TVV™) – TVV™ uses Automatic Number Identification (ANI) technology to validate telephone calls to log in and log out, recording time and location in real-time. Fixed Visit Verification™ (FVV™) – Patented technology to verify visits when no landline or cellular service is available.
