SteadyCare offers an “Attendance Verification Check-in System with Alerts” for staff and the individuals you support. Ideal for day and night shifts, remote workers, independent individuals, and more. Check-in anytime from anyplace! Know people arrived at the designated location and the time they checked in. Know if they’re awake and still there. Get alerts when they don't check in! We even make wake-up calls! Access via telephone, mobile app, or web. Manage online and get reports. Share info with other software. It’s reliable, cost effective, and customizable. Aids with compliance, fits into best practice models, and provides third-party verification. Helps promote safety and accountability!
